Mobile Markdown and Repricing Solution
Model : KTREPRICERWCRAD

The re-pricing app is an easy and efficient app designed for easily promoting products on sale and reducing waste. Staff can simply scan the barcode of products, enter a discount or new price and print the label. It works with most Point of Sale systems by producing a label that simply replaces the price from the existing barcode.

FEATURES   KTREPRICERWCRAD

RE-PRICER APPLICATION

- configurable label title - Adjust the label title text to capture the customers attention e.g. REDUCED, ON SALE, MANAGERS SPECIAL

- reduce the existing variable price by a percentage or dollar amount

- set a new price for the product

- print up to 10 copies of the label at once

- simply replace the price within existing price embedded barcode or produce a barcode that includes original price and new price

RUGGED HANDHELD DEVICE

- 5" IPS Panel with HD resolution, capacitive multi-touch, optical bond and glove support

- rugged design with 1.2M standard drop resistance and IP67 water resistant

- integrated 1D/2D barcode imager

- charging cradle for easy docking

MOBILE PRINTER

- portable direct thermal printer

- light weight design and belt clip for easy and long use

- mobile Bluetooth connectivity

- plastic design with rubber overmold construction that withstands 1.5M drop and IP54 water resistant

- 203dpi resolution and 102mm per second print speed
