

# Precision Counting Scale

Model : TSDC788

Accurate and easy to use the TSDC788 is full of features including 1/1,000,000 internal counting resolution for optimum counting accuracy. 2 scale feature in which a second platform can be connected to allow counting of a wider variety of parts.

Product memory allowing you to program frequently counted products to increase efficiency and reduce counting errors. Capacities ranging from 500g to 50kg. Bright red LED display making it easy to read from just about any angle and RS232 interface to allow connectivity to computer, printer or scanner.

## FEATURES

TSDC788

- 1/1,000,000 counting resolution
- bright and easy to read LED display
- 100 product memory
- 2 scale capability (allowing for connection of the second platform )
- RS232 interface
- automatic recomputing function to enhance counting accuracy
- negative sampling and counting capability
- auto power off function
- AC or battery power operation (battery optional)

## OPTIONS

- rechargeable battery
- thermal receipt printer
