

Premium Scanner Scale

Model : DL9800I

The next generation premium scanner scale for high volume checkouts, the Magellan DL9800I offers a state-of-the-art imaging scanner with high reliability designed to provide maximum throughput for both 1D and 2D bar codes.

The Top Down Reader offers seamless scanning of top-marked items. The Magellan DL9800I scanner also enables a new way to interact with shoppers: a customer-facing imager allows shoppers to quickly and easily self-scan digital coupons from mobile devices, paper-based coupons and loyalty cards.

FEATURES

DL9800I

- maximum throughput for both 1D and 2D barcodes at full sweep scanning speed
- captures and processes images at incredibly fast rates
- Datalogic Illumix illumination technology makes it easy on the operators eyes with no bright lighting causing irritation
- imaging from all 7 reading planes and improves the reading of damaged barcodes
- all-weighs scale platter provides extra area for weighing the long products
- integrated customer facing reader that allows the customer to scan their coupon or loyalty ID from a card, paper or from their mobile device allowing the operator to continue checkout reducing total transaction time
- the top down facing reader captures the codes from on top of the products reduces scanning times and strain for the operator having to rotate products
- integrated checkpoint and Nedap compatible EAS antenna or an aftermarket Sensormatic EAS antenna
