All-In-One Retail POS System

Unleash the power of Wedderburn's Atria POS Software, seamlessly integrated into DIGI's integrated POS and Retail Weighing Scale. Delivering unmatched performance and efficiency for retailers.

Model: RM5800EC151015NR

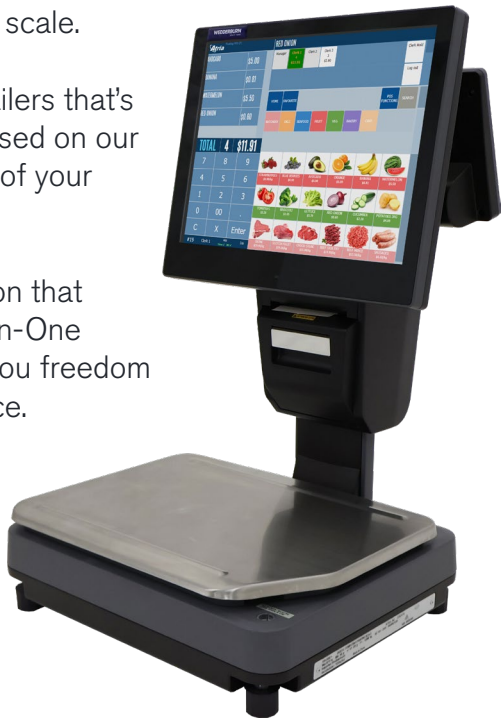
POS SYSTEMS

Introducing the ultimate all-in-one POS solution: Unleash the potential of Wedderburn's Atria POS software seamlessly integrated into the DIGI all-in-one RM5800 POS Scale for unparalleled performance and efficiency.

Get the best of both worlds by combining Wedderburn's Atria POS software with the space-saving DIGI RM5800 All-in-One, NMI trade approved, POS scale.

Atria Point of Sale System is a unique POS solution for fresh food retailers that's user-friendly, flexible and modern. It was developed by Wedderburn based on our extensive industry experience and is designed to grow with the needs of your business.

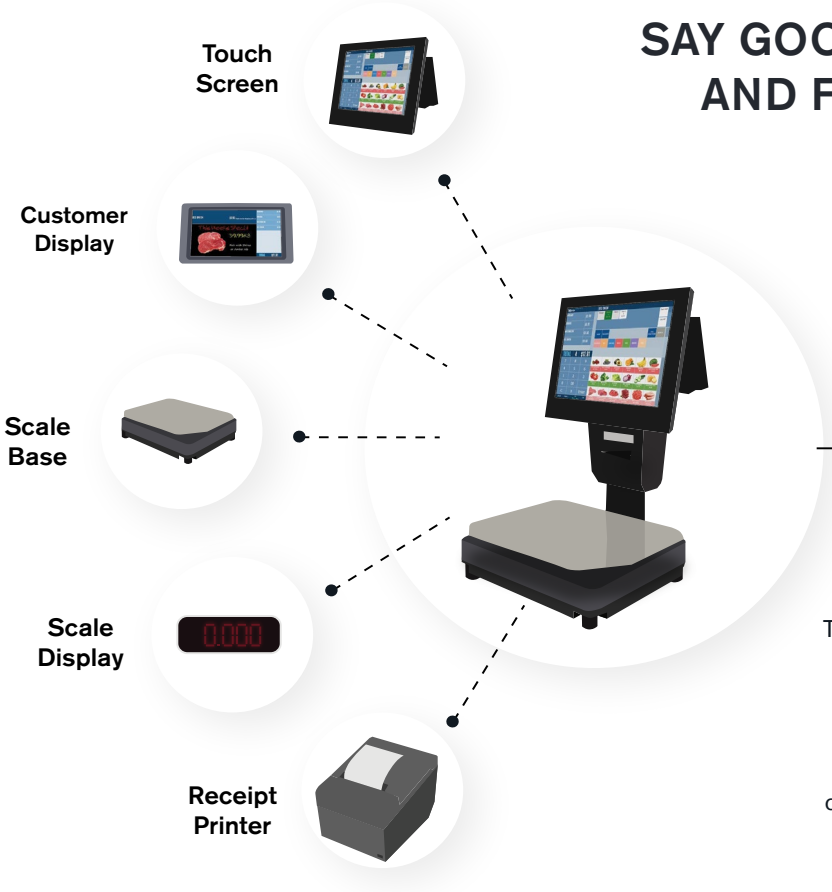
Atria Management System is a web-based back office software solution that provides insightful reports and enables easy management of your All-in-One RM5800 POS System. Adding the optional My Access feature gives you freedom to manage your store at any time from almost anywhere with any device.



COMPACT & POWERFUL

A compact and attractive design packed with power.

Experience revolutionary power coupled with our space-saving design. Unlike traditional POS systems that clutter your counter with multiple power and data cables for the POS, scale and printer, the all-in-one RM5800 simplifies your setup with just one power cable and one data cable, bringing 5 devices into 1 smart POS solution.



SAY GOODBYE TO MESSY CABLES AND FREE UP COUNTER SPACE FOR MORE PRODUCTS.

The RM5800 all-in-one POS integrates key components like a touch screen, customer display, scale base, and printer into a single compact unit.
It eliminates the need for multiple separate devices, freeing up counter space and reducing clutter.
This streamlined solution enhances workspace organisation, improving both functionality and aesthetics.

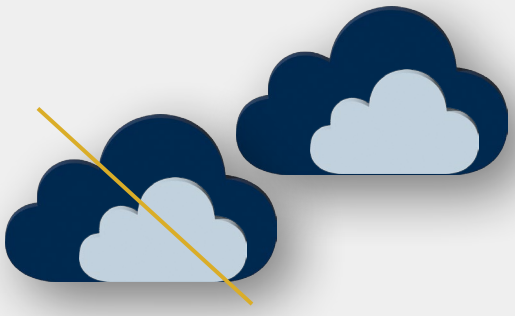
Atria POS System: Streamlined Operations and Enhanced Efficiency for Food Retailers

From managing online sales to handling holiday orders, Atria POS provides a comprehensive solution for seamless store operations. Its user-friendly interface and advanced features ensure efficiency and flexibility, making it the perfect tool to support your business year-round.



OPERATE ONLINE AND OFFLINE

No network, no worries! Don't let connection issues interrupt trade.

Powered by Atria POS, you can continue to operate without a local network or internet connection. Once the connection is restored your transactions will be automatically synced.

CUTOMISABLE POS SCREEN

User-friendly operation for a quick checkout process.

Allocate images to buttons to make it easier for operators to quickly identify products. Use product groups to simplify screens and create your own favourites screen.

SALES ORDERS

Streamline Order Management for Your Retail Business

Simplify order processing with Wedderburn's Digitised Sales Order System, seamlessly integrated into our POS solutions. Customers can place and pay for orders effortlessly, with options for partial payments, scheduled pickups, and loyalty rewards. Eliminate manual tracking and paperwork. Our system securely stores all order details, ensuring easy access and efficient management.

DYNAMIC WEIGHING

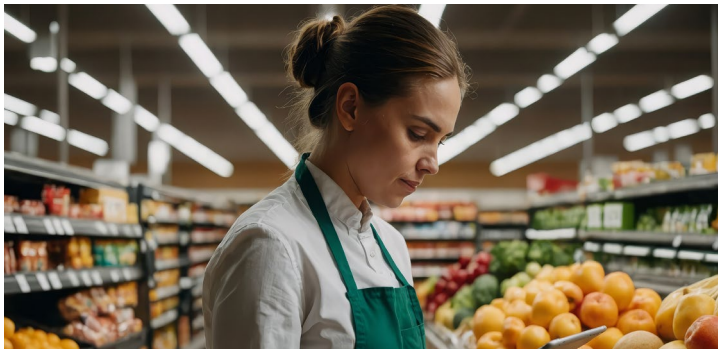
Increase efficiency, make it easier to upsell!

Instantly view the total price of a product as soon as it's placed on the scale, no need to lock in a weight to calculate price. Easily add more product to the scale to reach a specific dollar value. Save time, minimise input errors, and boost revenue with dynamic weighing.

INVENTORY CONTROL SOLUTIONS

Inventory Solutions for Every Store Size

Whether you operate a small food retail business or a larger establishment, Wedderburn offers inventory management solutions tailored to your needs. With real-time stock monitoring, automatic restocking alerts, and detailed sales reporting, our systems streamline operations. Seamless POS integration minimises manual input, ensuring efficient and accurate inventory control.



EFTPOS INTEGRATION

Quick, reliable and secure payment experience

Eliminate the potential for human error. Atria POS integrates with a range of EFTPOS integration providers, supported by all major Australian banks. The EFTPOS transaction is displayed on the POS receipt meaning your customer receives all details on just one receipt.

ATRIA POS BACK OFFICE

Manage your business operations remotely with real-time control and cloud-based convenience.

Manage your business from anywhere with Wedderburn's POS Back Office. Update prices, promotions, and stock levels in real-time from any device, whether you're in-store or on the go. Access your back office anytime, anywhere, ensuring seamless operations and full control over your business.

ONLINE SHOPPING

Integrate Atria POS into multiple online shopping options.

Atria POS seamlessly integrates with multiple online shopping platforms, providing a centralised solution to manage your database. Make a single price change in Atria POS, and it updates across all platforms instantly. You can create new products, edit prices, and oversee your inventory from one convenient location, transforming your online shopping experience with ease.

WHOLESALE POS SOLUTIONS

Efficiently manage bulk orders and streamline operations for wholesale food retailers.

Wedderburn's Wholesale POS Solutions handle large orders quickly and accurately. Automated tiered pricing applies volume-based discounts, while detailed sales reports help track performance and forecast orders. Manage client accounts easily, offering tailored services to boost customer satisfaction.

MIX 'N' MATCH PROMOTIONS

Boost Sales and Customer Engagement

Create bundled offers and discount combinations with ease. With integrated touch screens and customer displays, retailers can quickly manage and display promotional deals, encouraging customers to purchase multiple items. This helps drive sales, enhance customer satisfaction, and increase overall revenue.

CRYSTAL CLEAR ADVERTISING SCREEN

Increase revenue through targetted cross-selling and upselling messages.

Captivate customers with highly relevant and perfectly positioned advertising. The 10 inch TFT customer facing display delivers bright clear imagery to grab your customers attention and maximise cross-selling or up-selling opportunities.

GIFT CARDS

Enhance Customer Engagement & Boost Sales with Gift Cards

Equipped with integrated touch screens and customer displays, retailers can easily sell, track, and reload gift cards, offering customers a convenient option for thoughtful gifting. Gift cards are a powerful tool to increase customer engagement, encourage repeat business, and build brand loyalty.

WEDDERBURN SCALE INTEGRATION

Streamline Accuracy and Efficiency

Wedderburn's integrated scales, wrappers, and POS systems are powered by a centralised database, ensuring consistent pricing and accurate product details. Automatic weighing, labelling, and real-time inventory updates help reduce discrepancies and improve operational efficiency across your store.

ELECTRONIC SHELF TAGS (ESL)

Effortless Pricing, Anytime

Wedderburn's ESL technology simplifies price updates with real-time changes and seamless integration. Deliver clear pricing, enhance efficiency, and save time with this scalable solution for any store size.

CASHING UP

Cash off quickly at the end of the day

A coin counting feature allows you to eliminate time consuming recounts when a scale is connected to Atria POS. Track cash flow for each shift and reduce error, theft and discrepancies. Restrict operators from accessing end of day functions using clerk permissions.

TRAINING MODE

Train staff quickly and minimise supervision time

Get staff up to speed quickly with real examples. Clerks in training mode can utilise Atria POS like normal however the transactions aren't reported on.

NATIONAL MEASUREMENT INSTITUTE (NMI) COMPLIANT

Trade by weight with confidence.

The DIGI RM5800 POS Scale is approved by NMI for trade use in Australia and Atria POS has full supplementatry certificate of approval from the NMI - NMI M7
